The Mercenary King Series

Michael Kingman has grown up in a city where magic costs memories, the truth is dictated by those in charge, and the sounds of death from a rebel attack or the falling moon have become commonplace. Last of the legendary line of Kingman, son of a disgraced nobleman, standing trial for regicide himself, Michael is prepared to risk every last shred of memory to prove his father was not a murderer—and to protect his family at any cost.

THE KINGDOM OF LIARS (#1)

Michael is branded a traitor as a child because his father, David Kingman, was accused of murdering the king's nine-year-old son.

Ten years later on Michael lives a hardscrabble life with his sister Gwen, committing crimes with his friends against minor royals in a weak attempt at striking back at the world that rejects him and his family.

In a world where memory is the coin that pays for magic, Michael knows something is there in the hot white emptiness of his mind. So when the opportunity arrives to get folded back into court via the most politically dangerous member of the kingdom's royal council, Michael takes it, desperate to find a way back to his past. He discovers a royal family that is spiraling into a self-serving dictatorship as gun-wielding rebels clash against magically trained militia.

What the truth holds is a set of shocking revelations that will completely change the kingdom, if Michael and his friends and family can survive long enough to see it.

Total advances for the series are over \$250,000.

German rights sold at auction to Blanvalet in a five-figure deal!

The Mercenary King Series

“An excellent fantasy debut, with engaging worldbuilding and a good mix between action and character. I thoroughly enjoyed the novel, and look forward to following Nick’s sure-to-be lengthy writing career.”

–Brandon Sanderson, bestselling author of *Mistborn*, *The Stormlight Archive*, and the *Skyward* series

“Martell’s taut, clever debut tells of rebellion and regicide in a world where the use of magic comes at the cost of one’s memories...This smart, briskly told high fantasy entertains all the way until the unexpected end.”

–*Publishers Weekly*

“THE KINGDOM OF LIARS is a tale of family, loyalty and leaving a legacy that none shall forget. This is certainly a book that you won’t be able to put down, and will linger with you long after you’ve read the last page.”

–*The Fantasy Hive*

From Joshua Bilmes:

“Nick Martell is the most exciting debut author I’ve come across in over a decade, since I went out to market with Peter V. Brett. Nick’s been writing since 5th grade, is now 23, and is a more fully polished fantasist than Brandon Sanderson was at that age. And there’s no need of qualification here. Nick Martell isn’t great for a 23 year old; he’s great.”

“A symphony of loyalty, greed, family, and betrayal set in an innovative culture!”

–Tamora Pierce, #1 *New York Times* bestselling author of *Tempests and Slaughter*

“With a smartly plotted story, great world-building, flawed but fascinating characters and plenty of mystery, THE KINGDOM OF LIARS is a terrific debut.”

–James Islington, author of *The Shadow of What Was Lost*

“A richly rewarding fantasy that seethes with mysteries, fused with a mindscrew of a magic system. This, dear readers, is the good stuff.”

–Jeremy Szal, author of *Stormblood*

The JABberwocky Hall of Fame introduced by Joshua Bilmes

For decades, the books and authors we represent have been harbingers of new eras. You'll find many examples of that in our Hall of Fame: The Jump 225 trilogy by David Louis Edelman, which is to the closed internet of the app store what *Neuromancer* was to the original vision of cyberspace. *Compulsion*, which was one of the progenitors, along with *In Cold Blood*, of the true crime novel. Lord Darcy and *Blue Moon Rising*, rule-breaking fantasy novels that broke the mold and in so doing wrote a new rule book for the genre. And Elizabeth Moon and Brandon Sanderson have each written works that have endured for a decade, and will endure for decades to come.

Danso, a brainy but disillusioned novitiate scholar, is betrothed to a councilhand's daughter and destined for Bassa's elite, despite being a mixed-race shashi—half-Bassai and half of an extinct island tribe. Although his place in society is nearly made, he longs for something beyond the stifling obligations of family and state. A way out presents itself when Lilong, a skin-changing warrior-assassin, shows up wounded in his barn.

She comes from Namge—which, according to Bassa lore, doesn't exist—and neither should the mythical magic of ibor she wields. But the biggest questions her arrival raises are what really happened to Danso's mother, and what became of her "extinct" tribe?

Sold to Orbit in a high 5-figure deal on the strength of a partial manuscript.

NIGHTWATCH ON THE HINTERLANDS

A new book set in the same universe as *How Rory Thorne Destroyed the Multiverse*, **NIGHTWATCH ON THE HINTERLANDS** begins a new story arc and is the perfect entry-point for science fiction fans who love heart-pounding action sequences and good triumphing over evil.

World Eng. Audio—Tantor

The War That Ripped the Multiverse. Generations ago, an interspecies war tore a hole in the multiverse. Now extraplanar monsters surge out of the Weep at irregular intervals along its jagged border, held back by an alliance of templars and arithmancers, soldiers and priests.

The Templar. When Lieutenant Iari hears screams in the night, she expects to interrupt a robbery, or break up a fight. Instead she discovers a murder with an impossible suspect: a riev, one of the battle-mecha decommissioned after the end of the last surge, repurposed for manual labor. Riev don't kill people. And yet, clearly, one has. Iari sets out to find it.

The Spy. Officially, Gaer of the Five Tribes is an ambassador between his people and Iari's, and their resident expert on arithmancy, the magic his people wield as easily as they breathe. But he's also a spy, sending information back to his government about the Weep, unfiltered by diplomatic channels. Unlike Iari, Gaer isn't so sure the riev's behavior is just a malfunction.

As Gaer and Iari search for the truth, they discover that the murderous riev is just a weapon in the hands of a wielder with wider ambitions than homicide. Who will do anything to stop their investigation. Including releasing horrors not seen since the war, that makes rampaging riev seem insignificant...

Eason's short fiction has been published in *Cabinet-des-Fées*, *Jabberwocky 4*, *Crossed Genres*, and *Kaleidotrope*.

EXTRATERRESTRIAL SUMMER

EXTRATERRESTRIAL SUMMER is a personal recollection mixed with film criticism, as Jason flips back and forth between the pop culture of the era (*E.T.*, *Blade Runner*, *Tron*, *Star Trek*, *Star Wars*, futuristic new-wave music, the Space Shuttle craze, etc.), drawing parallels and delving into the root of the phenomenon of alienation.

Rights sold:
World Eng.—Melville House

This memoir, heavily tinged with pop culture criticism, follows the summer of 1982 when Jason Heller spent a large part of his summer in a two-screen movie theater in a strip mall managed by his grandmother, watching *E.T.* over and over. His mother, who is bipolar, was in the middle of a manic episode and had left Jason and his brother in their grandmother's care. The increasing alienation Jason felt as a tween living with his grandparents, approaching puberty, and being a science fiction nerd all pieced together that strange summer.

DISRUPTION

DISRUPTION is an important, scholarly, fact-based work that reads like a thriller.

In 2006, a terrorist attack came startlingly close to bringing down a half dozen aircraft, killing thousands of people, bankrupting an industry, and devastating the lives of millions. It was the 2006 liquid bomb plot which led to the three-ounce rule and the one-quart bag for airplane travel.

Rights sold:
US—Potomac, Recorded

Renowned intelligence analyst, educator and TV personality Aki J. Peritz provides hitherto unrevealed details about the plot and its unraveling. Peritz has collected thousands of declassified documents, reviewed thousands of pages of court transcripts, and interviewed scores of industry leaders, senior policymakers, and experts from the US, Great Britain, Israel and elsewhere. Many of the interviewees have revealed details to Peritz that they've been holding close for over fifteen years.

DISRUPTION: THE 2006 LIQUID BOMB PLOT & TERRORISTS' HALF-CENTURY LOVE AFFAIR WITH THE AIR INDUSTRY is a true story which serves as a springboard to look at the broader history of aviation-based terrorism from the first skyjackings, through the successful attacks on 9/11, to the narrowly averted plot in 2006. The book analyzes our immediate and long term reactions, and ultimately posits both future threats to aviation and the best practices for containing them.

Peritz has appeared on CNN's *The Situation Room* with Wolf Blitzer and as an intelligence analyst in the CBS 2017 reality TV show, *Hunted*.
